About This Game

Welcome to the Korvux kingdom. A fantasy world that is controlled by the Korvux clan.

Today is the day where you apply for a membership, but not everything turns out as you hoped.

A thief stole the golden raven, the symbol of the clan. But the Korvux executives seem pretty interested in the whole happening. To finally become a Member you will have to bring the executives back together, solve the theft and bring back the golden raven.

what Can You Expect From Korvux?

- Story driven, Turn-Based RPG
- Quite A Few Hours of Playtime
- A coherent story and playable game
- A lot of inside jokes you won't get
- A lot of jokes you will get
- References (the easiest form of comedy)
- Over 20 different characters

Special Thanks to all the Korvux members who helped me with the creation of this game.

Very nice game.

The developer is in weekly contact to some people of the playerbase and tries to improve the game on a regular basis.

So far he did a very decent job and i hope we will soon get to see Korvux Chapter 2.

Closing, i can only recommend the game to all people who have a heart for indie like games and want to support smaller developers.

Release Date Change:

I want to apologize to all of our fans who are waiting for the release of Korvux on the 2nd of July. Sadly we had to push back the release 2 weeks in order to release a complete experience.

Even though it has become increasingly rare these days we want to release a finished game and not have to add content for months after its release. Therefore we have decided to add the finishing touches in the next 2 weeks.

The actual release date is the 15th march 2019.. **Release:**

I'm happy to announce that finally, today on the 15th of march, Korvux - Chapter 1 has been released.

I had quite a turbulent time in the months before and a lot of content was changed. Most changes were simple in nature and good, but there also are a few bad ones. This whole game started very small but with every new idea I had quickly grew a lot bigger than I anticipated. This is why Korvux is now planned with two chapters instead of one big release.

Also the German translation has been indefinitely postponed. Please write on the community hub if you're interested in a German release.

Thanks for playing

- Charles
